

宜 捷 海 特 航 空 服 务  
EXECUJET HAITE AVIATION SERVICES CHINA

ExecuJet Haite has earned approvals from the Civil Aviation Administration of China (CAAC) Part-145, European Aviation Safety Agency (EASA) Part-145, FAA Part-145 repair station, Cayman, Hong Kong, Macau, Bermuda, and Aruba, to perform various levels of line and base maintenance.

Specializing in Airframe, Avionics and Engine maintenance, our aircraft engineers are factory trained and certified on a wide range of aircraft, including Dassault Bombardier, Gulfstream, Embraer, and Boeing.

QUALITY BUILDS BRAND, SERVICE CREATES FUTURE

## ABOUT EXECUJET HAITE

ExecuJet Haite Aviation Services China Co., Ltd. was founded in December 2010 and is a full-service, state-of-the-art business jet facility located at Binhai International Airport in Tianjin, China. The company opened its custom-built hangar and office complex in 2014 and continues to expand on the Tianjin site that includes 2,700 square meters of business jet-dedicated hangar space, over 10,000 square meters of ramp space for parking, an on-site engine run-up bay, a customer and employee canteen restaurant, and a direct access security channel.

## FIRST CLASS FACILITIES

The ExecuJet Haite facility is purpose built with a focus on high quality maintenance. The facility holds multiple Approvals including CAAC, EASA and FAA Certification. Representing multiple airframes, engine and avionics OEMs, the facility is regularly audited and achieves the highest standards in the Aviation industry. ExecuJet Haite has won multiple Asian awards for service excellence. Customer's enjoy responsive AOG support from our well positioned MRO who partake in multiple AOG recovery events each week.

## Maintenance Excellence

Brought to you **exclusively** by  
**ExecuJet Haite**

# MAINTENANCE CAPABILITIES

ExecuJet Haite provides Line and Base maintenance support capabilities and AOG services for a diverse group of aircraft types, including repair, modification, and upgrades, adding constant improvements to your aircraft’s reliability. Holding ASC status for multiple aircraft and engine OEMs and aftermarket Maintenance Program authorization, ExecuJet Haite is able to seamlessly process warranty and program claims.

With avionic technology becoming increasingly sophisticated, ExecuJet Haite’s highly trained and experienced engineers are familiar with the latest developments in technology through regular recurrent training. Performing line and base maintenance, AOG support and complex avionics installations with precision and confidence.

ExecuJet Haite represents multiple engine OEMs and performs line and base maintenance functions. ExecuJet Haite has invested into training and tooling to support engine maintenance. From PPI borescopes to heavy maintenance and repairs, we are ready to support the Customer’s needs.

Component capabilities include Wheels and Batteries along with other critical components such as Oxygen and fire bottles. ExecuJet Haite also provides NDT services and offers full aircraft painting, structure and composite repair, aircraft cleaning, pre-purchase inspections and interior repair and refurbishment.
