# ABOUT EXECUJET HAITE MRO SERVICES

ExecuJet Haite Aviation Services China Co., Ltd. was founded in December 2010 and is a full-service, business jet maintenance and ground handling company located at Binhai International Airport (ZBTJ) in Tianjin and at both Capital Airport (ZBAA) and Daxing International Airport (ZBAD) in Beijing, China.

The company opened its custom-built Tianjin hangar and office complex in 2014 and continues to expand on the site that includes 2,700 square meters of business jet-dedicated hangar space, over 10,000 square meters of ramp space for parking, an on-site engine run-up bay, a customer and employee canteen restaurant, and a direct access security channel. The company added another MRO facility in 2024, located in Beijing at Daxing Airport. This state-of-the-art facility features 5,000 square meters of climate-controlled hangar space complete with modern and customer centric offices and amenities. ExecuJet Haite also started providing exclusive ground handling services at both Beijing airports to go along with line maintenance in 2024.

## FIRST CLASS FACILITIES

The ExecuJet Haite facilities, whether in Beijing at Capital Airport, Daxing Airport, or Tianjin Airport, are all purpose built with a focus on high quality maintenance. They hold multiple Approvals including CAAC, EASA and FAA Certification. Representing multiple airframes, engine and avionics OEMs, the companies are regularly audited and achieve the highest standards in the Aviation industry. ExecuJet Haite has won multiple Asian awards for service excellence. Customer's enjoy responsive AOG support from our well positioned MRO who partake in multiple AOG recovery events each week.

# MAINTENANCE CAPABILITIES

### AIRFRAME

ExecuJet Haite provides Line and Base maintenance support capabilities and AOG services for a diverse group of aircraft types, including repair, modification, and upgrades, adding constant improvements to your aircraft's reliability. Holding ASC status for multiple aircraft and engine OEMs and aftermarket Maintenance Program authorization, ExecuJet Haite can seamlessly process warranty and program claims.

### AVIONICS

With avionic technology becoming increasingly sophisticated, ExecuJet Haite's highly trained and experienced engineers are familiar with the latest developments in technology through regular recurrent training. Performing line and base maintenance, AOG support and complex avionics installations with precision and confidence.

### ENGINES

ExecuJet Haite represents multiple engine OEMs and performs line and base maintenance functions. ExecuJet Haite has invested into training and tooling to support engine maintenance. From PPI borescopes to heavy maintenance and repairs, we are ready to support the Customer's needs.

### OTHER

Component capabilities include Wheels and Batteries along with other critical components such as Oxygen and fire bottles. ExecuJet Haite also provides NDT services and offers full aircraft painting, structure and composite repair, aircraft cleaning and polishing, pre-purchase inspections and interior repair and refurbishment.
